

Our Snap Frames allow for easy poster change and are extremely easy to use. Each side of the frame simply snaps open and closed allowing for quick poster changes. They are manufactured from extruded aluminium and available in a range of colours.

There are three options to ensure they meet your snap frame requirements. 25mm Lightweight, 32mm Medium Duty and the 44mm Heavy Duty frames. All are supplied with a 1.5mm plastic back panel and anti-glare clear lens front.

We also have Tamper Resistant Snap Frames with a 32mm frame. They can only be opened with the supplied lever tool. Secure your posters without any visible locks or screws. This is a fantastic solution for displaying posters in public areas.

Then we have the Lockable Snap Frames, again with a 32mm frame. The frames incorporate a sequential locking system: meaning that only one side of the frame needs to be locked with a key, making these frames perfect for quick poster changes.

**Other Features and Benefits:**

- Easy to use.
- Also available - Tamper Resistant and Lockable.
- Three frame sizes available.

**Ideal For:**

Banks, Schools / Universities, Retail Shops and Centres
