

D Series Touch Panel Controller

Description

D series touch panel controllers are wall-mounted LED controllers.

Widely used for commercial/office/residential lighting, allowing for dimming and RGB control.

User friendly but designer interface.

Unique structure, super easy to install/maintain.

Support DMX 512 output control DMX lamps.

Support 4 zones, different zones can be control independently.

High accuracy touching IC+special post-processing ,the touching accuracy is greatly improved

Simple operation, easy to use.

Touching along with chord music & LED indicator.

Visual & Auditory & Touch 3 layers to feel the light-changing synchronously

Latest human detection design. Capacitive touching sensor

Using advanced IC+ touch special post-processing technology, the touch is extremely accurate, soft to the touch but highly sensitive.

Our high-grade tempered glass panel is super easy to operate and with outstanding features: sleek designer finish, excellent protected against moisture, water, corrosion and dust. Easy to clean. high strength, shatter proof and scratch resistant, non-deforming, no discolouring and highly durable.

Technical Specification

Input voltage DC12V~DC24V

Output signal DMX512

Control mode 4 Zones control

Gray scale level 4096×4096×4096×4096

Working temperature -20?~60?

Dimensions L86×W86×H36mm

Package Size L112×W112×H48mm

Weight (N.W.) 210g
